

ANTI-SKUNK RECIPE

1 quart of 3% Hydrogen Peroxide solution

1/4 Cup Baking Soda

1 tsp. Liquid Soap

Mix together and immediately apply to the affected animal. Skunk essence is made of sulfur molecules. The materials in the recipe, when mixed together, form alkaline peroxide that chemically changes the skunk essence into sulfuric acid, which is completely odorless. Mix the solution when you are ready to use and *do not* store.
